

WAJIH HAWARI

Software Engineer | Flutter Developer

Lattakia, Syria | +963 996 972 054 | wajihhoware@gmail.com | [LinkedIn](#) | [Portfolio](#)

3+ Years Experience • 12+ Projects Delivered • 2 Companies • Remote & On-site Experience • Technical Team Lead • Flutter Instructor

SUMMARY

Flutter Developer with 3+ years of experience building and maintaining cross-platform mobile applications for Android and iOS, across remote and on-site roles. Proven track record delivering 12+ production apps, leading development teams as a Technical Lead, and training new developers as a Flutter Instructor. Proficient in Dart, Clean Architecture, BLoC/Provider/GetX, REST API integration, and Firebase. Skilled in translating client requirements into scalable technical solutions.

PROFESSIONAL EXPERIENCE

Flutter Developer — UAE Software Company

Remote | 6 Months

- Maintained and enhanced a production Flutter application
- Fixed bugs and implemented new features
- Collaborated remotely with the development team
- Successfully published application updates to Google Play

Flutter Developer — Software Company - Latakia, Syria

On-site | 2 Years

- Developed and maintained multiple Flutter applications
- Built scalable features using Clean Architecture and BLoC
- Integrated REST APIs, Firebase, authentication, maps, and payment solutions
- Collaborated closely with UI/UX designers and backend developers

Freelance Flutter Developer & Technical Lead — Multiple Clients

- Led the development team for a SaaS platform
- Planned architecture and distributed tasks among developers
- Communicated directly with clients and translated requirements into technical solutions
- Delivered multiple freelance projects across different industries

Flutter Instructor — Training Center

- Delivered Flutter training sessions for beginner and intermediate students
- Taught Dart, Flutter fundamentals, state management, Clean Architecture, and API integration
- Mentored students through practical projects and code reviews

KEY PROJECTS

- **NightDream (Android & iOS):** Wedding services app with location-based browsing, secure payments, multilingual support (EN, AR, DE, TR, FA), and push notifications.
- **Rehearsals (Flutter Web):** AI-powered mock interview platform with answer analysis, interactive charts, subscription payments, and multilingual support (EN, AR).
- **Food Ordering App (Android & iOS):** Meal ordering app with Google Maps delivery selection, 3D meal previews, and online payments.
- **My Fatura (Android):** Makeup e-commerce app with location-based store search and multilingual support (DE, EN).
- **SCA Construction App (Android & iOS):** Assisted in deploying the application to Google Play and the App Store.
- **Sales Assistant App (Android):** Barcode-scanning sales tool with product details, order history, and Google Maps integration.
- **Dentist App (Android):** Dental appointment booking and management system for patients and doctors.

- **Qasaudna (Android):** Content platform for exploring poems, songs, and artistic works, with publishing tools for poets.
